6 Retransmitted with compliments to the Secretary to Government, Development Department.

7 The primary duty of a Sanitary Inspector is to educate the public in Sanitary matters and this educational work with a Magic Lantern requires the services late in the evening. The recurring expenditure for arranging shows and lectures will be for the purchase of Calcium Carbide which is not a very expensive material perhaps costing six annas a lb. It will be a great advantage from public health propaganda point of view if the Sanitary Inspectors are provided with Magic Lanterns as the Cinema outfit of the Department cannot visit all the villages in each District as only one outfit is available for the whole State. Separate recommendations have been sent to Government for the purchase of B.G.12 Model Bausch and Lomb Magic Lanterns through the Rockefeller Foundation by which 33 1/3 per cent of the price of the Magic Lantern can be saved. The price quoted by Bausch and Lomb after discount is 48 $ and with freightage, insurance and customs duty, it may be about 72 $. The Lantern of Bausch and Lomb is a very good one and may be purchased, through the Rockefeller Foundation.

8 It was stated in this office letter No. H.E.367 dated 2nd December 1936 to the President, District Board, Kolar that the approximate cost of the Magic Lantern will be about Rs.220/- and the lantern slides one rupee each for the coloured slides and eight annas for the ordinary slide. The Magic Lantern may be purchased through the Rockefeller Foundation and the slides can be obtained from the Red Cross Depot, Lahore.
